

Hello to all of the members of the Indianapolis Region.

It has been an extraordinary few weeks as our world faces historic challenges with the growing COVID-19 (coronavirus) pandemic. Taking into account the latest updates from the CDC other health officials, the declaration of a national emergency, major disaster declarations, and the state of Indiana's Stay At Home order, all Indy SCCA events in April have been canceled. Your board of directors will be meeting on April 21<sup>st</sup> to discuss whether we will be able to hold events that are on the May schedule. We will make our best effort to decide at least 2 weeks before each event if we will be holding the event as planned, postponing, or canceling the event. We would like to reschedule as many events as possible, but with the available dates this may not always be possible.

With the nature of the coronavirus and how it is spread the board had decided until further notice to **not allow** the use of loaner helmets until this can be done safely for all our members and event participants. There are some helmets that can be purchased for under \$100 that are Snell 2015 approved. A link below is one on Amazon that fits the SCCA rules.

I hope that each and every one of you and your families is staying safe in these difficult days. I also hope that we get back to hosting our events soon and that I can see everyone at the track and having fun with our cars.

We appreciate your continued support as we tackle this ongoing challenge,

Joel Harleman
