RE-REPORT  
By: Dave Dusterberg

The Holiday Season is over and the Annual Meeting coming up, that means I’ve reached the end of the road as your R.E. I want to thank everyone for their help and support as I came to be R.E. under unusual circumstances. I hope I lived up to everyone’s expectations or at least didn’t offend too much. I’m looking forward to continuing to serve the Region hopefully as the Activities Chair, co-chairing the Club Race program, and as the Solo Bus Driver…….

Cheers,

Dave

**Clutch Chatter Mailing Opt In/Opt Out**

A complete, printable, electronic format copy of Clutch Chatter (including back issues) is available in Adobe pdf format for downloading on the Indy Region website at indyscca.org. Paper copies are only mailed to those who have sent the “Opt-In" form.

When an issue of Clutch Chatter is completed and ready for publication, the pdf file will be posted on the Indy Region website and a special notice e-mail will be sent to the Indy Region e-group with a link to the download page. This should be available several days before the mailed copies arrive, since it won’t have to go through the printer or the mail.

**New members** of Indy Region will receive Clutch Chatter in the mail for two months, after which they are expected to view or download from the website. They will be able to elect to opt-in by filling out and mailing in the form below.

**Non-members.** Clutch Chatter is a valuable tool for recruiting new members into the region, and drawing participants to our events. Our plan is to add non-member competitors to the mailing list for two months. If they participate in another event during the two months, then they stay on the list for two more months.

If you **change your mind**, you can complete and mail in the form below.

PLEASE REMEMBER THIS IS NOT SET IN STONE AT THIS TIME.
The purpose of the Involved Member Award is to recognize Indianapolis Region members who exhibit exceptional participation during the year. It is not a competition between members. In fact, the more award recipients the better. It is truly a celebration of dedication, support and commitment to Indy Region SCCA.

An Involved member award will be presented to each Indianapolis Region member, 16 years of age and older, who earns a minimum of 800 points in a calendar year by participating in at least two of the following four areas of participation: meetings and other club-sponsored special events, rally, race and solo.

An Involved member award will be presented to each Indianapolis Region junior member, under 16 years of age, who earns a minimum of 400 points in a calendar year by participating in at least two of the areas of participation.

The Involved member award will be an embroidered lightweight jacket or fleece. A member will be awarded a jacket only once in every 5 calendar years (example: a winner presented a jacket in 2003 is eligible again in 2008). Repeat awards within the 5 calendar years will be recognized by embroidering of the award year on the jacket.

Points are awarded as follows:

There will be no combination of points for a single event; points from only one category may be scored per day. For example, a member who is a worker and a driver on the same day at the same event may only score points for one category or the other. Each member is solely responsible for tracking and reporting their points; no one else will do this for you. To be eligible for an award, the Indy Region member must fill out the attached form or a reasonable facsimile and mail or e-mail it to the Membership Chairman. The form can also be downloaded in Excel format from our website, making tabulation of points easier. All forms must be received no later than December 31st of the year in order to be eligible for an Involved Member Award for that year. Confirming receipt of submitted points is the sole responsibility of the entrant. A person’s eligibility will be verified by the Membership Chairman. The IMA will be presented to the winning members at the Annual Awards Banquet for that year.

Life’s Truism’s

By: Unknown Author

Someone has written these beautiful words. One must read and try to understand the deep meanings in them. They are like the Ten Commandments to follow in life all the time.

1] Prayer is not a "spare wheel" that you pull out when in trouble; it is a "steering wheel" that directs us in the right path throughout life.

2] Do you know why a car’s WINDSHIELD is so large & the rear view mirror is so small? Because our PAST is not as important as our FUTURE. So, look ahead and move on.

3] Friendship is like a BOOK. It takes few seconds to burn, but it takes years to write.

4] All things in life are temporary. If things are going well enjoy it, they will not last forever. If things are going wrong don’t worry, they can’t last long either.

5] Old friends are like Gold! New friends are Diamonds! If you get a Diamond, don’t forget the Gold! Because to hold a Diamond, you always need a base of Gold!

6] Often when we lose hope and think this is the end, GOD smiles from above and says, "Relax, sweetheart, it’s just a bend, not the end!

7] When GOD solves your problems, you have faith in HIS abilities; when GOD doesn't solve your problems HE has faith in your abilities.

8] A blind person asked St. Anthony: "Can there be anything worse than losing eye sight?" He replied: "Yes, losing your vision."

9] When you pray for others, God listens to you and blesses them; and sometimes, when you are safe and happy, remember that someone has prayed for you.

10] WORRYING does not take away tomorrow's TROUBLES; it takes away today's PEACE.

If you really enjoy this, PLEASE pass to others. It may brighten someone’s day. Praying for love and peace to fill the coming NEW Year.
Slow Down??????????

By: Warren LeVeque

At a recent autocross event we had a “jump” in the course due to a new course restriction. This caused my car to leap about 3” inches and come down with a crash. I was also way out of shape to make the next turn in. When asked about the problem, the Chief Safety Steward said “just slow down”. Maybe I could if I had a 3 second lead, but I was .5 seconds behind. I continued on at speed an eventually broke my car’s suspension—still lost the win. The site is non usable now so that is not the issue here.

We must have “A” type personalities to succeed in racing. “Slow Down” is not in our vocabulary. There are some specific instances where a bit of slowing down to choose your apex is called for, but never in an acceleration zone. Why did we waste all of our time and money on” go fast” gear just to ‘cruise’?

I’m reminded of a rare few times when I was leading a road race and I got a sign from my pit crew to take it easy (slow down): I couldn’t conceive of that. I did try to slow down a bit and starting missing apexes and started hitting curbing. Then, I just kept aggressively charging, but using a lower shift point, and it worked out fine. The reason that going slower didn’t work in that case is because the front to rear roll resistance bias is set for a specific speed through the corners; slowing would cause understeer and speeding up would cause oversteer.

We “A” types get a high out of the competition. We can cruise at the local drive in or car show. Being on the edge is what it all about; whether challenging some one for the corner, challenging the limit of the car, or challenging the clock (and therefore another competitor). I have alternate activities designated for relaxing.

When watching big time races, like NASCAR for example, do you root for the guy who is cruising around just collecting points or the guy like Dale Earnhart who is going for the win? I remember one time at a convention where we rented a Fast Karts at a track. As I was cruising around in the Kart (I thought I was going fast), a bully of a youngster took me out on purpose for no reason on one of the straights. As I recovered I returned the favor (in a corner), drove like a type “A” and unknowingly took the win. That’s a lot better than counting points!

As an example of type “A” adventures, Michael and I were participating in a Porsche Track Event at Putnam park a few years ago; we were required to ride with instructors. One of the instructors’ cars was a race prepared 911. The 911 had a tough time on the fast sweepers.

Later on, the word got back to us that the junky old Corvairs were just in the way of the Porsches. Aha, we then knew just what to do about it! No passing was allowed in the corners so we came through the fastest sweeper so fast (long wheel base, high polar moment car) that on the following straight we had to either pass the Porsches or hit them. Of course we got black flagged for aggressive driving (passing too many Porsches?)—quite a compliment as I see it. Later, I was asked to be an instructor the next year; it was a compliment.

Another time the Corvair club was having a track event at Beaver Run. Michael and I had identically prepared cars, so really couldn’t pass each other. Donna Mae Mims was a special guest at the event. Donna Mae was the first lady SCCA national road race champion. She was also a part of the Yenko Chevrolet racing team and raced a “Think Pink” Yenko Stinger Corvair in National Races. I asked permission to take her for a ride around the track. Donna Mae was working active grid in her pink hot pants. After the time trials were over, I pulled up in a car with functioning doors and this attractive senior citizen (Donna Mae) crawled through the window. On the track Michael and I, via chasing each other (not passing in corners), were giving Donna Mae a great ride. While braking for the corners she was literally suspended in air on the belts.

The black flag came out; we were the only cars on the track at that time so I asked Donna Mae if she wanted to quit. She answered an emphatic “NO” so we continued on until the flags got more dramatic. We found out that the flags were for aggressive driving—huh, weren’t we on a race track? What would you have done? Donna Mae is gone now. I made the right decision.

I can remember one credible example of “Slowing Down”. One or our National Solo Champion friends in a modified class used, to intentionally throw away all but one of his runs by going so fast that he couldn’t make it through the course cleanly, but posted unbeatable times. Then all of his “spooked” competitors would try to catch his dirty runs, with dirty runs, while he “slowed down” maybe a few tenths of a second and made a last, clean, fast, winning run.

In a larger sense “slowing down” can be a metaphor of your life. I have slowed down to financial restrictions, family needs, education, etc. as most have in their normal life experiences. I once slowed down (virtually stopped) due to eight major surgeries in three years. When I finally recovered I was nearly unstoppable to get on with life. The next time that I slow down, other than by choice, will be when daisies are growing out of the sod above me.

Warren

Friends With Benefits

“Benefits” in this old guy’s case would be “Race Cars”. It’s easy after all of these years to connect friends with their cars. The ones without tons of money that can’t afford the latest version of some stock car either keep and modify their cars or take on long term projects to build their favorite car.

Lots of times a person will take their stock Mustang, Camaro, sports cars, econobox, sport sedan, or grocery getter and refine it for 30 years into an SP, Prepared, or Modified car. Sometimes they will keep a car near to it’s original condition and only modify it to keep up to the inevitable class changes. Now we are experiencing people coming back to their original “personality” cars after years of being away. Some even come back to the sport after years of raising children or pursuing careers.

When I go to an autocross event, the first nice thing that happens is witnessing the big smile at the gate by the wrist band/waiver person. This is the beginning of a great day. This is especially true if visiting an out of town event (almost all out of town for me). The next thing is searching through the paddock for familiar cars and the faces that go with them; or vice versa. I especially look for the groups of the prepared and modified car with whom I have a lot in common. At four or more events this summer, some of the groups of cars were even Corvair based.

Going through tech inspection is also a good time to visit and sneak a peak of your competitors’ and/or friends’ car acquisitions or improvements. If I’m lucky enough to work safety, I get to visit even more.

When the event is going along smoothly, it’s time to notice the persons without current cars who just come to visit their friends with benefits. Sometimes you can recognize them by their voices alone. There is a lot of catching up to do about their lives, careers, car projects, children, grand children, and great grandchildren. On the track we often recognize the “voice” of their racecars.

I can hardly wait for hugs from the “babes” that come to race or to watch their mates race.

Often the event is essentially a picnic in the motor sports park.

What is a Solo Safety Steward?

A Person accepting responsibility from the SCCA to:
- Help plan and oversee the safety aspect of an autx event.
- Know and execute the regulations under which SCCA operates its events.
- Show good judgment in handling real world situations.
- Hold sufficient power to shut-down or cancel events that are in non-compliance.

Why Become a Safety Steward?

It’s NOT A DODGE. IT’S IMPORTANT.
- We can’t run an event without one.
- Drivers, workers, and spectators all depend on you.
- People can and do get hurt in Solo2.
- Our entry fees are effected by our insurance rates, the Solo Safety Program is in place to help keep those rates low.

How to become a Safety Steward.

- Be a member of the SCCA.
- Attend a training seminar. (that’s this!)
- Act as a deputy SSS for 2 Solo2 events.
- Fill out the application and submit to SCCA National.

Responsibilities of a Safety Steward.

- Driver, crew and guest safety. You are responsible for everyone.
- Stay Alert – are proper precautions being observed?
- Review the entire safety situation with the event chairperson(s) before starting the day.
- Read and understand the SCCA Solo2 rulebook, and any regional supplemental regulations.
- All mandatory rules under the Solo2 Rules:
  - Section 1 (all), 2, 2.1 - 2.4, 3.1, 3.3, 3.6, 4.1, 4.3, 5.2 - 5.5, and 5.8.
- Solo Safety Steward Guidebook. (Appendix E of Solo2 Rules)

Spectator safety = spectator control.

- Barriers.
- Crowd control marshals.
- Minimum spectator distance: 75 ft*
- No children under 12 in hot areas.*
- Approve photographers on/near course only with spotter.

Course design review.

- Consider both drivers* and workers.
- Do not evaluate from a driver’s perspective or a “fun course” perspective.
- Look at it with a “comfort zone”. Anticipate what you understand might happen.
- Work with the course designer, not against them, if possible problems are perceived.

Course Design Review.

- SCCA Solo2 events are by definition a “non-speed driving skill contest”. Not a RACE.
  - “Speeds on straight stretches should not normally exceed the low 60’s (mph) for the fastest Stock and Street Prepared category cars.” – 2004 Solo2 Rules 2.1.A.
  - No physical hazards.
  - Gravel, oil, holes, dips etc.
  - No closer than 25 ft from solid objects.**
  - Limit off camber turns
  - Keep cars on course away from each other.
  - Sight line for SSS’s
  - Start, finish, staging and timing areas.
  - Keep high speed sections away from spectators.
- Select safe corner worker stations.
- Gates: 15ft min. Slalom: 45 ft min.

A bit about SCCA Insurance.

- SCCA event liability insurance covers all event officials, workers, and other participants.
- But only if they’ve signed the waiver.
- People without wristbands are potential risks.
- Distinction between participants (drivers, workers etc.) and non-participants (spectators).
- Insurance is one thing that sets SCCA apart from other clubs.
- SCCA will stand behind you in the unlikely event of litigation.

Event Duties as a Solo Safety Steward.

- Verify insurance certificate (sanction form).
- Review the course.
- Make sure that spectator areas are well designated.
- Pay attention to worker positions, red flags, fire bottles etc.
- Coordinate with other safety stewards, crowd control marshals, and other workers as needed.
- Keep your eyes and ears open.

In the event of non compliance.

1. Advise the chair of the problem and request corrective action.
2. Stop the event until corrective action is taken.
3. Suspend the event insurance and sanction. Inform all participants of this. They may only continue at their own risk.

NOTE: This is irreversible.

In Case of Accident or Incident.

Minor Incident

- Any spectator injury.
- Minor participant injury (no medical assistance required).

Major Incident

- Spectator or participant fatality.
- Serious participant injury (requiring medical treatment).
- Any spectator injury.

1. Call SCCA Risk Management emergency number (800-770-9994) immediately!
2. Complete and mail SCCA Incident Report Form to Risk Management.
3. Complete and mail Insurance Claim Form to Wisenberg Insurance Inc.

Minor Incident

- Minor participant injury (no medical assistance required).
- Property damage. Damage to a competition vehicle is considered property damage, but is subject to reasonable interpretation by the SSS.

1. Complete and mail the SCCA Incident Report Form to Risk Management.
2. Within one business day of the event, call the DSSS and report the incident.

How to Be a Good Safety Steward.

- Always use good judgment. Do not be swayed by peer pressure, but listen to others arguments and opinions. Keep your eyes and ears open.
- Know the rules.
- Spread the word.
- Safety is everyone’s business.

ABOVE ALL:

Apply reasonable and prudent judgment to course design, course speed, spectator viewing areas, event site layout, traffic flow. We count on your best judgment.
